

# Defibrillator Locations

(updated September 2022)

## Important

- In an emergency always dial 999 and ask the ambulance service WHERE the nearest defibrillator is and WHAT the cabinet code is. This is because your nearest defibrillator might not be on this list.
- Some of the locations listed below are quite large. Please find out exactly where your nearest defibrillator is located, as in an emergency situation minutes really do count.
- Please contact Heartstart Malvern if you are aware of a Public Access Defibrillator which is not on this list
- Please follow us on the Heartstart Malvern Facebook page as we put details of all our new defibrillators on there

Heartstart Malvern launched an appeal to install 50 public access defibrillators around Malvern and the surrounding villages in 2017. We have now installed 30 public access defibrillators. Each defibrillator and cabinet costs about £1,600 to buy. Heartstart Malvern would like to thank all of the local fundraising groups and individuals who have already supported our appeal.

A defibrillator and its cabinet costs about £1,600 to buy. There are still many areas in Malvern where a defibrillator is not readily accessible by members of the public. If you would like to donate to our appeal please click onto the MyDonate button on our homepage or if you would like to organise a fundraising event, please use the Contact Us button on our homepage.

Each defibrillator is kept in a locked cabinet. To get access to the defibrillator you must dial 999 first. The list below contains details of all of the public access defibrillators which we are aware of. If you know of any defibrillators not on this list, please contact us.
